FULL-STACK DEVELOPER

Independent Full-Stack Developer

Full-Stack Developer

Holon, Israel

2021 - Present

- Built full-stack web applications using Next.js, React, TypeScript, Prisma, PostgreSQL, Clerk, and Vercel.
- Developed a ticket management system with organizations, users, groups, dashboard views, and ticket workflows.
- Built CRM-style tools for managing customers, leads, tasks, insights, and business operations.
- Created networking utilities to help validate client-side testing issues and troubleshoot network performance.
- Designed and deployed personal and client-ready applications with authentication, database models, responsive UI, and production hosting.

Network Engineer

NOC & Tier-2 Technician

Rosh-Ha-Ayin, Israel

2021 - present

- Troubleshoot production network issues across customer and internal environments.
- Analyze routing, DNS, latency, packet loss, and connectivity problems using network diagnostic tools.
- Handle escalations, outages, fiber issues, equipment replacements, and service-impacting incidents.
- Work with tickets, internal teams, field technicians, and customers to resolve technical problems.
- Bring networking knowledge into software projects, especially around reliability, security, and troubleshooting workflows.

PROJECTS

Gym Sytro *Next.js, React, TypeScript, Prisma, PostgreSQL, Clerk, Tailwind*

<https://gym.sytro.io>

Workout tracking and training-plan web app

Portfolio Website *Next.js, React, SCSS, Cloudflare R2, Vercel*

<https://valerilevinson.com>

Personal multilingual developer portfolio

Network Tools *Docker, Vite, Vue, React, Javascript, tailwind*

https://github.com/Valeri-L/temp_speedtest

Network testing and validation utilities

SKILLS

Programming Languages:

TypeScript, Python, HTML, CSS, SCSS

Frontend Development:

React, Next.js, Vue, Responsive UI, Mobile-first design, Component-based architecture

Backend Development:

Node.js, FastAPI, Django, Django REST Framework, Flask, REST APIs

Databases & ORM:

PostgreSQL, SQLite, Prisma, SQL, NoSQL basics

Authentication & User Management:

Clerk, Google Sign-In, protected routes, user-specific data

DevOps & Deployment:

Vercel, AWS EC2, Linux, Docker, DockerHub, GitHub Actions, NGINX

Networking:

CCNA fundamentals, IP networking, DNS, routing, packet loss analysis, firewalls,

Tools & Workflow:

Git, GitHub, VS Code, Figma, Cloudflare R2, Postman, Chrome DevTools

Professional Strengths:

Problem solving, debugging, production troubleshooting, independent learning, teaching
